

(excerpt from email received January 20, 2025)

I would like to give a quick 5-minute speech that aims to demystify trans people and I'd like to address the disinformation in the ad on LTC buses that state "Let Kids Be: Put The Brakes on Medical Transition for Minors". Once I breakdown the disinformation, I will reference Canada's Ad Standards and how this ad is in violation. I will also provide a case study where another transit commission in Ontario refused to showcase a transphobic ad and how it was upheld in court a year and a half later hopefully empowering the board to remove the transphobic ad with confidence and if there is any threats of litigation for removing the ad, how to combat it effectively.

Thank you so very much for the opportunity and I greatly appreciate this opportunity to have a voice and I understand the responsibility entrusted to me with this delegation.

Most Sincerely,
Stevie Brocksom (they/he), President
